		Issuing Authority: Sheriff Anthony Cureton	

POLICY

It is the policy of the Bergen County Sheriff's Office to maintain a workplace free of illegal drug use, alcohol abuse, and abuse of prescription medication. The Bergen County Sheriff's Office is responsible for ensuring that illegal use of drugs by individual law enforcement officers does not undermine the integrity of this agency or threaten the safety and morale of other law enforcement officers. The procedures contained herein shall be in accordance with the New Jersey Attorney General's Law Enforcement Drug Testing Policy revised December 2020, the New Jersey Attorney General's Law Enforcement Directive No. 2018-2, the New Jersey Attorney General's Law Enforcement Directive No. 2020-8 and the Bergen County Prosecutor's Law Enforcement Directive No. 2018-1. This policy shall serve as notification to all employees of the agency's drug testing policy. This general order is considered an annex to the Rules and Regulations of the Bergen County Sheriff's Office.

PURPOSE

The goal of the policy is deterring illegal drug use by law enforcement officers. Because illegal drug use is inconsistent with the duties, obligations and responsibilities of sworn law enforcement officers, the policy mandates that officers who test positive shall be terminated from employment. The policy sets forth uniform methods and procedures for implementing and administering law enforcement drug testing and further outlines the duties and responsibilities of the Bergen County Sheriff's Office with respect to the drug testing process. The policy seeks to ensure that the employment rights of individual law enforcement officers are safeguarded consistent with legal principles. As a result, the policy sets forth procedures for the uniform collection, submission and analysis of drug test specimens. The procedure further seeks to ensure the accuracy and reliability of the drug testing process. The Bergen County Sheriff's Office shall administer its drug testing program in a way that is fundamentally fair to individual law enforcement officers and is consistent with due process requirements and the laws of this State.

PROCEDURE

I. Definitions

- A. **Alcohol** The intoxicating agent in the alcoholic beverage, ethyl alcohol or other low molecular weight alcohols, including methyl or isopropyl alcohol.
- B. **Alcohol Concentration** The alcohol in a volume of breath expressed in terms of grams of alcohol per 210 milliliters of breath as indicated by a breath test, or the alcohol measured by grams of alcohol per 100 milliliters of blood.
- C. **Alcohol Use** The consumption of any beverage, mixture or preparation, including medications, containing alcohol.
- D. **Applicant** A person applying for employment or an employee applying for a position or title change within the Bergen County Sheriff's Office.
- E. **Cancelled Test** A drug test that has been declared invalid by a State of New Jersey testing facility or other facility utilized for testing employees. Subject is neither a verified positive nor negative test, and includes a specimen rejected for testing by a laboratory.

- F. **Chain of Command** The unbroken line of authority extending from the Sheriff through a single subordinate at each level of command down to the level of execution. The chain of command shall also be carried in reverse.
- G. **Confirmation Test** A second analytical procedure to identify the presence of a specific drug or metabolite, independent of the screening test, which uses a different technique and chemical principle to ensure reliability and accuracy. In alcohol testing, a second test following a screening test with a result of 0.02 or greater that provides quantitative data of alcohol concentration.
- H. **Controlled Substances** The terms "drugs" and "controlled substances" shall include all derivatives of the following classes of drugs: amphetamine/methamphetamine; barbiturates; benzodiazepine; cannabinoids; cocaine; methadone; phencyclidine; opiates; steroids or any controlled substance as defined in N.J.S.A. 2C:35.
- I. **Criminal Drug Statute** A federal or state statute involving the manufacture, distribution, dispensing, use or possession of any controlled substance.
- J. **County Property** County property includes the following, wherever located: all property, facilities, land, buildings, structures, trucks, automobiles, and all other vehicles, whether owned, leased or used by the county.
- K. **Drug** Any substance, other than alcohol, that has a known mind or function altering effects on a human subject, specifically, including any psychoactive substance and including, but not limited to a controlled substance.
- L. **Employee** Any person, sworn or unsworn, who works in any capacity for the Bergen County Sheriff's Office. This also includes paid or unpaid interns and volunteers.
- M. **Laboratory** unless otherwise specified, "the Laboratory" refers to the New Jersey State Medical Examiner Toxicology Laboratory, the only facility approved for the analysis of law enforcement drug tests conducted under the Attorney General's Law Enforcement Drug Testing Policy.
- N. **Possess** To have on one's person or in one's personal effects or under one's control, whether constructive or actual.
- O. **Prohibited Drug** Prohibited drugs shall include, but not be limited to the following: amphetamine/methamphetamine; barbiturates; benzodiazepine; cannabinoids; cocaine; methadone; phencyclidine; opiates; steroids or any controlled substance as defined in N.J.S.A. 2C:35, unless lawfully subscribed by a physician licensed within the State of New Jersey.
- P. **Random Selection** Random selection is defined as a method of selecting employees for drug testing in which every member of the agency, regardless of rank or assignment, has an equal chance of being selected each and every time a selection is made
- Q. **Reasonable Suspicion** requires objective facts which, with inferences, would lead a reasonable person to conclude that drug-related activity is taking or has taken place and that a particular individual is involved in that drug activity.

- R. **Refusal to Submit to a Test** After having received notice of the requirement to be tested in accordance with the provisions of this policy, failure of an applicant, trainee, or employee to provide adequate breath samples for alcohol testing, or urine specimen and/or blood sample for drug testing as directed. Also, engaging in conduct that clearly obstructs the testing process.
- S. **Sworn Member** Any person who has taken a sworn Oath of Office with the Bergen County Sheriff's Office (County Correction Officers, County Sheriff's Officers, Sheriff's Investigators, and County Police Officers).
- T. **Verified Negative Drug Test Result** A drug test result determined, by the testing facility, not to be evidence of use of alcohol or a prohibited drug.
- U. **Verified Positive Drug Test Result** A drug test result determined, by the testing facility, to be evidence of use of a prohibited drug or alcohol.

II. Applicability

A. Personnel

1. Applicants for a position as a law enforcement officer who, if appointed, will be responsible for the enforcement of the criminal laws of this State and will be authorized to carry a firearm under N.J.S.A. 2C:39-6.
2. Law enforcement officer trainees subject to the Police Training Act while they attend a mandatory basic training course.
3. Sworn law enforcement officers who are responsible for the enforcement of the criminal laws of this State, come under the jurisdiction of the Police Training Act and are authorized to carry a firearm under N.J.S.A. 2C:39-6.
4. This Policy does not apply to civilian employees.

B. Employment Status

Drug testing may be categorized by the employment status of the individual being tested and the method by which the individual was selected for testing. These methods include applicant testing, trainee testing, and officer testing. Testing is required of all police applicants and trainees. Pursuant to AG Directive 2018-2, law enforcement agencies are required to implement a random drug testing program for all sworn officers in their departments. Further, law enforcement agencies have an independent obligation to undertake drug testing of individual officers and trainees when there is reasonable suspicion to believe that the officer or trainee is illegally using drugs.

1. Applicant Testing

The Law Enforcement Drug Testing Policy recognizes that drug testing is an important component of a pre-employment background investigation. Thus, prospective employees should be drug tested as a condition of employment. The policy requires law enforcement agencies engaged in the

hiring process to drug test prospective employees at any point during the pre-employment process.

In addition, applicants for employment may be tested as many times as the law enforcement agency deems necessary to ensure that the applicants are not engaged in the illegal use of drugs. For example, applicants who have been drug tested as part of the application process may be tested again if a significant amount of time has elapsed since the previous step in the employment process.

During the pre-employment process, the agency must ensure that it complies with the provisions of the Americans with Disabilities Act (ADA) by refraining from making any medical inquiries. Therefore, the medication information form should not be used at the applicant stage, unless a positive test result requires an explanation by the prospective employee.

2. Trainee Testing

Individuals hired as law enforcement officers who are required to attend and successfully complete a mandatory basic training course approved by the Police Training Commission are subject to drug testing during their attendance at a police academy. Trainees will be required to submit one or more urine specimens for testing while they attend a mandatory basic training course. The drug testing of law enforcement trainees will be conducted by the police academy staff under rules and regulations adopted by the Police Training Commission.

Individual trainees shall also be required to submit a urine specimen for testing when they have been randomly selected to submit to a drug test or there exists reasonable suspicion to believe that the trainee is illegally using drugs. A trainee shall be ordered to submit to a drug test based on reasonable suspicion only with the approval of the county prosecutor, the chief executive officer of the trainee's agency, or the academy director.

3. Officer Testing

Sworn law enforcement officers, including trainees, shall be ordered to submit a urine specimen for testing when they have been randomly selected to submit to a drug test. Random selection shall be defined as a method of selection in which each and every sworn member of the Bergen County Sheriff's Office, regardless of rank or assignment, has an equal chance to be selected for drug testing each and every time a selection is conducted.

Sworn law enforcement officers shall also be required to submit a urine specimen for testing when there exists reasonable suspicion to believe that the officer is illegally using drugs. An officer shall be ordered to submit to a drug test based on reasonable suspicion only with the approval of the county prosecutor or the chief executive officer of the officer's agency.

Urine specimens may also be collected from law enforcement officers during a regularly scheduled and announced medical examination or a

fitness for duty examination. However, the collection and analysis of these specimens are not governed by this policy.

C. Types of Testing

1. Random Testing

- a. Random drug testing of all state, county and local sworn law enforcement officers is required by AG Directive 2018-2.
- b. Random selection is defined as a method of selecting employees for drug testing in which every member of the agency, regardless of rank or assignment, has an equal chance of being selected each and every time a selection is made.
- c. The number of officers to be selected each time a random test is conducted shall be less than the total number of sworn officers employed by the agency. AG Directive 2018-2 requires a minimum of ten (10) percent of the sworn officers within an agency be randomly tested each time.
- d. Each agency must perform the random test at least twice in every calendar year.
- e. The agency must use a method of random selection which ensures that every sworn officer in the agency has an equal chance of being selected each and every time a selection takes place. In other words, an officer who has been selected on one or more previous occasions for a random drug test is not excused from future tests. The mechanism for selecting officers can be as simple and inexpensive as placing names in a hat, or as complex and expensive as a custom computer program.
- f. Unless otherwise directed by applicable law or policy, the Bergen County Sheriff's Office shall use the InfoShare "Randomizer" program for the random drug testing selection process, as mandated by the Bergen County Prosecutor's Office.
- g. The random selection process should be verified and documented. The agency may permit representatives of the affected collective bargaining units to witness the selection process.
- h. Any employee of the Bergen County Sheriff's Office who discloses the identity of an officer selected for random testing, or the fact that a random selection is scheduled to take place prior to the collection of urine specimens, will be subject to discipline, up to and including termination.
- i. In accordance with the Attorney General's Law Enforcement Drug Testing Policy, a negative result is a condition of employment as a sworn officer and a positive result for an illegal substance will result in: a) upon final disciplinary action, the officer's termination from employment; b) inclusion of the officer's name in the Central Drug

Registry maintained by the Division of State Police; and c) the officer being permanently barred from future law enforcement employment in New Jersey.

- j. In accordance with the Attorney General's Law Enforcement Drug Testing Policy, law enforcement officers who refuse to submit to a drug test based on reasonable suspicion or random drug testing, after being lawfully ordered to do so, are subject to the same penalties as those officers who test positive for the illegal use of drugs. A sworn law enforcement officer who resigns or retires after receiving a lawful order to submit a urine specimen for drug testing and who does not provide the specimen shall be deemed to have refused to submit to the drug test.

2. Reasonable Suspicion Testing

- a. In accordance with the Attorney General's Law Enforcement Drug Testing Policy, the Bergen County Sheriff's Office must undertake drug testing when there is reasonable suspicion to believe a law enforcement officer is engaged in the illegal use of controlled substances. Reasonable suspicion "requires objective facts which, with inferences, would lead a reasonable person to conclude that drug-related activity is taking or has taken place and that a particular individual is involved in that drug activity."
- b. The reasonable suspicion standard is "less demanding" than the probable cause standard in two ways:
 - i. The amount of evidence needed to satisfy the reasonable suspicion standard is less than that needed to satisfy the probable cause standard.
 - ii. The type of information used to satisfy the reasonable suspicion standard may be "less reliable than that required to show probable cause."
- c. The following factors should be evaluated to determine the quality and relevance of the information acquired by the law enforcement agency:
 - a. The nature and source of the information;
 - b. Whether the information constitutes direct evidence or is hearsay in nature;
 - c. The reliability of the informant or source;
 - d. Whether corroborating information exists and the degree to which it corroborates the accusation; and
 - e. Whether and to what extent the information may be stale

- d. Before an officer may be ordered to submit to a drug test based on reasonable suspicion, the Bergen County Sheriff's Office shall prepare a confidential written report documenting the basis for the reasonable suspicion. The report shall be reviewed by the County Prosecutor or the Sheriff before a reasonable suspicion test may be ordered. Under emergent circumstances, approval may be given for a reasonable suspicion test on the basis of a verbal report. Law enforcement executives who wish to discuss whether the information they possess is sufficient to conduct reasonable suspicion testing should contact the Bergen County Prosecutor's Office for advice.
 - e. Any employee of the Bergen County Sheriff's Office who discloses the identity of an officer that will be or had been subject to a drug test based on reasonable suspicion, will be subject to discipline, up to and including termination.
 - f. In accordance with the Attorney General's Law Enforcement Drug Testing Policy, a negative result is a condition of employment as a sworn officer and a positive result for an illegal substance will result in: a) upon final disciplinary action, the officer's termination from employment; b) inclusion of the officer's name in the Central Drug Registry maintained by the Division of State Police; and c) the officer being permanently barred from future law enforcement employment in New Jersey.
 - g. In accordance with the Attorney General's Law Enforcement Drug Testing Policy, law enforcement officers who refuse to submit to a drug test based on reasonable suspicion or random drug testing, after being lawfully ordered to do so, are subject to the same penalties as those officers who test positive for the illegal use of drugs. A sworn law enforcement officer who resigns or retires after receiving a lawful order to submit a urine specimen for drug testing and who does not provide the specimen shall be deemed to have refused to submit to the drug test.
3. Post-Accident Testing
- a. The Bergen County Sheriff's Office requires that all sworn employees and trainees involved in an accident, while in the performance of their duties, immediately report the accident to the applicable on duty supervisor within the Sheriff's Operations Unit.
 - b. If the accident resulted in either the loss of human life or serious bodily injury, then the employee may be subject to drug and or alcohol testing.
 - i. Any sworn employee or trainee subjected to post-accident testing shall be required to remain readily available at the accident site or at the Sheriff's Office and shall not consume any substance other than water prior to submitting to post-accident testing.

- ii. Failure to remain readily available for testing shall be considered a refusal and shall be considered a violation of this policy.
- c. Any sworn employee or trainee who refuses to provide an appropriate sample, tests positive for an illegal substance, or demonstrates testing misconduct, shall be subject to disciplinary action, up to and including termination.
- d. Nothing in this policy shall require delay of medical attention for injured person(s) following an accident or to prohibit an individual from leaving the scene for their own medical attention, to obtain assistance, or to comply with specific accident scene requests of law enforcement officials.
- e. Drug and/or alcohol screening shall be administered as soon as practicable.
- f. Drug and/or alcohol screening tests conducted as a result of an accident that causes serious bodily injury or death are not governed by the New Jersey Attorney General's Law Enforcement Drug Testing Policy. Testing conducted by federal, state, county or local authorities, having independent authority for the testing, shall be considered to meet the requirements of this policy.

III. Notification of Drug Testing Procedures

A. Applicants

- 1. Agencies must notify applicants for law enforcement positions that the pre-employment process will include drug testing.
- 2. The notification will also indicate that a negative result is a condition of employment and that a positive result will:
 - a. Result in the applicant being dropped from consideration for employment;
 - b. Cause the applicant's name to be reported to the central drug registry maintained by the Division of State Police; and
 - c. Preclude the applicant from being considered for future law enforcement employment for a period of two years from the date of the drug test.
- 3. In addition, the notification will indicate that if the applicant is currently employed by another agency as a sworn law enforcement officer and the officer tests positive for illegal drug use, the officer's employing agency will be notified of the test results and the officer will be terminated from employment and permanently barred from future law enforcement employment in New Jersey.

4. Applicants shall be further informed that their refusal to submit to a drug test shall result in their no longer being considered for law enforcement employment in New Jersey.

B. Trainees

1. All newly appointed law enforcement officers shall be informed that drug testing is mandatory during basic training.
2. Newly appointed officers shall also be informed that a negative result is a condition of employment and that a positive result will:
 - a. Result in the trainee being dismissed from basic training;
 - b. The trainee's termination from employment;
 - c. Inclusion of the trainee's name in the central drug registry maintained by the Division of State Police; and
 - d. The trainee being permanently barred from future law enforcement employment in New Jersey.
3. Newly appointed officers shall be further informed that the refusal to submit to a drug test shall result in their dismissal from employment and a permanent ban from future law enforcement employment in New Jersey and inclusion of the trainee's name in the central drug registry maintained by the Division of State Police.
4. Each police academy shall include in its rules and regulations a provision implementing drug testing during basic training.

C. Sworn Law Enforcement Officers

1. Individual law enforcement officers will be ordered to submit to a drug test when there is reasonable suspicion to believe that the officer is illegally using drugs as well as when they are subject to mandatory random drug testing pursuant to AG Directive 2018-2.
2. Pursuant to the Attorney General's Law Enforcement Drug Testing Policy, a negative drug test result is a condition of employment as a sworn officer and a positive result for an illegal substance will result in the following:
 - a. The officer's termination from employment;
 - b. Inclusion of the officer's name in the central drug registry maintained by the Division of State Police; and
 - c. The officer being permanently barred from future law enforcement employment in New Jersey.
3. Law enforcement officers who refuse to submit to a drug test based on reasonable suspicion or random drug testing after being lawfully ordered to do so are subject to the same penalties as those officers who test

positive for the illegal use of drugs. A sworn law enforcement officer who resigns or retires after receiving a lawful order to submit a urine specimen for drug testing and who does not provide the specimen shall be deemed to have refused to submit to the drug test.

IV. Specimen Acquisition Procedures

A. Preliminary acquisition procedures

1. The Sheriff or his designee shall designate a member(s) of his/her staff to serve as monitor(s) of the specimen acquisition process.
 - a. The monitor(s) shall always be of the same gender as the individual being tested (the donor).
 - b. In the event there is no member of the same gender available from the agency collecting the specimens, the agency may request that a member of the same gender from another law enforcement agency serve as monitor(s) of the process.
2. Prior to the submission of a specimen, an applicant for a law enforcement position shall execute a form consenting to the collection and analysis of their urine for illegal drugs (Attachment A). The form shall also advise the applicant that a negative result is a condition of employment and that a positive result will result in the consequences outlined in Section III.A of this policy.
 - a. Applicants for law enforcement employment are not required to submit a Drug Testing Medication Information form (Attachment D) with their specimen.
 - b. If an applicant tests positive, the law enforcement agency, following notification from the State Toxicology Laboratory, must have the candidate complete the Drug Testing Medication Information form (Attachment D) listing all prescription medication, non-prescription (over-the-counter) medication, dietary supplements, and nutritional supplements that were ingested by the donor during the 14 days prior to the specimen collection. The Drug Testing Medication Information form shall be placed in an envelope which is sealed by the donor. The donor shall date and initial the seal, and write their Donor ID on the envelope.
3. Prior to the submission of a urine specimen, a trainee enrolled in a basic training course shall execute a form (Attachment B) advising the trainee that a negative result is a condition of employment and that a positive result will result in the consequences outlined in Section III.B of this policy.
 - a. The form shall also advise the trainee that the refusal to participate in the test process carries the same penalties as testing positive.
 - b. Trainees shall complete a Drug Testing Medication Information form (Attachment D) listing all prescription medication, non-

prescription (over-the-counter) medication, dietary supplements and nutritional supplements that were ingested by the officer during the past 14 days. The Drug Testing Medication Information form shall be placed in an envelope which is sealed by the donor. The donor shall date and initial the seal, and write their unique identifier (Donor ID) on the envelope.

4. Prior to the submission of a urine specimen, an officer shall execute a form (Attachment C) advising the officer that a negative result is a condition of employment and that a positive result will result in the consequences outlined in Section III.C of this policy.
 - a. The form shall also advise the officer that the refusal to participate in the test process carries the same penalties as testing positive.
 - b. Sworn officers shall complete the Drug Testing Medication Information form (Attachment D) listing all prescription medication, non-prescription (over-the-counter) medication, dietary supplements and nutritional supplements that were ingested by the officer during the past 14 days. The Drug Testing Medication Information form shall be placed in an envelope which is sealed by the donor. The donor shall date and initial the seal, and write their unique identifier (Donor ID) on the envelope.

B. Monitor's Responsibilities

1. The monitor(s) of the specimen acquisition process shall be responsible for the following:
 - a. Ensuring that all documentation is fully and accurately completed by the individual submitting the specimen (the donor).
 - b. Collecting specimens in a manner that provides for individual privacy while ensuring the integrity of the specimen. Individual specimens and forms shall be identified throughout the process by the use of donor identification numbers (Donor ID). At no time shall a name appear on any form or specimen container sent to the Laboratory.
 - c. Complying with chain of custody procedures established by the New Jersey State Toxicology Laboratory for the collection and submission for analysis of urine specimens.
 - d. Specimens shall be collected utilizing split collection kits supplied by the Laboratory. Under no circumstances shall a specimen be collected and submitted for analysis in a specimen container that has not been approved by the NJ State Medical Examiner Toxicology Laboratory. It is the responsibility of each agency to contact the Laboratory to obtain the Split Specimen Kits and Forensic Urine Drug Testing Custody and Submission Forms (CSF).

- e. Collecting and submitting urine specimens in accordance with procedures established by the State Toxicology laboratory.
2. In order to ensure the accuracy and integrity of the collection process a monitor may:
 - a. Direct an individual officer who has been selected for drug testing to remove outer clothing (jackets, sweaters etc.), empty their pockets, and wash their hands under running water, before they produce a specimen.
 - b. Add tinting agents to toilet water and secure the area where the specimens are to be collected prior to specimen collection.
3. If the monitor has reason to believe that an individual officer will attempt to adulterate or contaminate a specimen, substitute another substance or liquid for their specimen, or compromise the integrity of the test process, the monitor may conduct a direct observation of the individual officer. If a monitor concludes that direct observation is necessary, he or she must document the facts supporting the belief that the officer will attempt to compromise the integrity of the test process before there can be direct observation.

C. Urine Specimen Collection Procedure

1. Unless otherwise noted, all steps must be completed by the donor in the presence of the monitor.
2. The monitor allows the donor to select one NJ State Medical Examiner Toxicology Laboratory issued sealed split specimen collection kit.
3. The donor unseals the split specimen collection kit, removes the specimen bag and specimen containers from the specimen collection container, and places all items on a clean surface.
 - a. The specimen containers shall be kept closed/unsealed at this time.
 - b. The specimen collection container and specimen containers should be kept within view of both the donor and the monitor.
4. The monitor instructs the donor to void a specimen of at least 45 mL into the specimen collection container, to not flush the toilet, and return with the specimen container immediately after the specimen is produced.
5. The monitor checks the specimen for adequate volume and the temperature indicator strip on the specimen container within 4 minutes.
 - a. A color change between 90° and 100°F indicates an acceptable specimen temperature. The monitor indicates if the temperature is acceptable by marking either the "Yes" or "No" box in the specimen collection section of the CSF. If a temperature strip does not

- indicate the acceptable temperature, the monitor must consider the possibility that the officer attempted to tamper with the collection.
- b. The monitor must follow the "shy bladder" procedure for donors that initially are unable to produce an adequate amount of urine (See Section IX. B, "Shy Bladder" Procedure below).
6. The monitor instructs the donor to split the collected specimen into the specimen containers.
 - a. The donor opens both specimen containers and pours at least 30 mL of urine from the collection container in the primary specimen container and at least 15 mL of urine from the collection container in the secondary specimen container.
 - b. The donor secures both specimen containers by placing and securing the lids/caps on the specimen containers.
 7. The monitor instructs the donor to seal the specimen containers with tamper evidence seals from the CSF.
 - a. The donor carefully removes the Bottle A Specimen Container Security Seal from the CSF and places it over the lid/cap and down the sides of the primary specimen container with the greater volume of urine (30 mL).
 - b. The donor carefully removes the Bottle B (SPLIT) Specimen Container Security Seal from the CSF and places it over the lid/cap and down the sides of the secondary specimen container with the lesser volume of urine (15 mL).
 8. After the seals are placed on the specimen containers, the donor writes the collection date and his or her initials in the space provided on the security seals to certify that the specimen containers contain the specimen that he or she provided.
 9. The monitor prints his/her name, signs and dates the monitor/agency acknowledgement section of the CSF.
 10. The monitor instructs the donor to place both specimens in the front pouch of the specimen bag that contains the absorbent pad.
 11. The monitor separates the white laboratory copy of the CSF, folds it, and places it in the rear pouch of the specimen bag along with the sealed medication information sheet, if provided.
 12. The monitor seals the specimen bag by removing the release liner from the flap and folding the blue adhesive flap to cover the cross hatch slit opening.
 13. Any remaining urine and the specimen collection container may be discarded.

14. The monitor will take possession of the sealed specimen bag and ensure that it is delivered to the NJ State Medical Examiner Toxicology Laboratory in a timely manner (See Section V. Submission of Specimens for Analysis below).

D. "Shy Bladder" Procedure

1. When a donor initially produces an inadequate amount of urine, the monitor must take the following steps:
 - a. Advise the donor to remain on the premises and under the supervision of the test monitor, until the monitor is satisfied that the donor cannot produce a specimen.
 - b. While the donor is under supervision, allow the donor to drink up to 40 ounces of fluids distributed reasonably over a period of up to three hours in an attempt to induce the production of a specimen.
 - c. Under no circumstances, should multiple voids be combined to produce an adequate sample volume.
2. If the donor remains unable to provide a specimen after a reasonable period of time, the monitor may have the donor examined by a doctor to determine whether the inability to produce a specimen was the result of a medical or physical infirmity or constituted a refusal to cooperate with the drug testing process.

E. Split Specimen

1. A donor whose specimen tested positive may only challenge the positive test result by having the split specimen independently tested by an accredited laboratory. The first specimen will not be retested.
2. The split specimen will be maintained at the State Toxicology Laboratory for a minimum of one year following the receipt of a positive drug test result from the laboratory by the submitting agency.
3. The split specimen will be released by the NJSTL under the following circumstances:
 - a. The agency is notified by the State Toxicology Laboratory that the first specimen tested positive for a controlled substance;
 - b. The agency notifies the donor that the first specimen tested positive for a controlled substance; and
 - c. The agency is informed by the donor whose specimen tested positive that he/she wishes to challenge the positive test result.
4. A representative of the second test laboratory may, in person, take possession of the second sample in accordance with accepted chain of custody procedures or the sample may be sent to the second test

laboratory by commercial courier also following accepted chain of custody procedures.

5. Following testing of the split specimen, the independent laboratory will report the result of the split specimen drug test to the donor, to the submitting agency, and to the NJ State Medical Examiner Toxicology Laboratory medical review officer.

V. Submission of Specimens for Analysis

- A. The NJ State Medical Examiner Toxicology Laboratory (the Laboratory) is the only facility approved for the analysis of law enforcement drug tests conducted under the Law Enforcement Drug Testing Policy. Law enforcement agencies are not permitted to use any other facility or laboratory for the purpose of analyzing urine specimens for illegal drug use by law enforcement officers.
- B. Urine specimens should be submitted to the Laboratory as soon as possible after their collection. In the event specimens cannot be submitted to the laboratory within one working day of its collection, the Bergen County Sheriff's Office shall store the specimens in a controlled access refrigerated storage area until submission to the Laboratory (Attachment E).
- C. Specimens may be submitted to the Laboratory by commercial courier using "next day delivery" or in person by a member of the Bergen County Sheriff's Office (appointments only).
- D. All specimens must be accompanied by the Law Enforcement Drug Testing Custody and Submission Form which can be obtained from the lab and the sealed envelope containing the Medication Information Form. The State Toxicology Laboratory will inspect all documentation to ensure that it has been properly completed. Failure to include the appropriate documentation with each submission will cause the Laboratory to delay conducting an analysis of the specimen or specimens until the missing documentation is submitted.
- E. In addition to ensuring that the appropriate documentation has been completed and submitted for each specimen, the State Toxicology Laboratory shall inspect each specimen for damage and evidence of tampering.
 1. The Laboratory may reject any specimen it has reason to believe has been tampered with or is damaged; and
 2. Notify the submitting agency in writing with the reason for rejection clearly stated.

VI. Analysis of Specimens

- A. The analysis of the first specimen shall be done in accordance with currently accepted procedures adopted by the Laboratory. These procedures shall include but not be limited to security of the test specimens, chain of custody, initial screening and confirmation testing, parent drug and metabolite cut-off levels and

the issuance of final reports. In addition to the controlled substances listed below, every Law Enforcement Executive may request that specimens be analyzed for the presence of steroids.

- B. The Laboratory's drug testing procedures will screen specimens for the following controlled substances:
 - 1. Amphetamines
 - 2. Barbiturates
 - 3. Benzodiazepines
 - 4. Cocaine
 - 5. Marijuana/Canabis
 - 6. Methadone
 - 7. Opiates
 - 8. Oxycodone/Oxymorphone
 - 9. Phencyclidine
- C. The Laboratory utilizes a two stage procedure to analyze specimens.
 - 1. In the first stage, all specimens will undergo an initial screening. The initial screening determines whether one or more of the nine substances listed and/or their metabolites are present at or above a designated cutoff. All presumptive positive specimens will undergo a second and more specific type of testing.
 - 2. The second type of testing will employ mass spectrometry detection for the definitive identification and quantitation of drugs and/or metabolites presumptively identified by the initial screen.
- D. When a specimen tests positive at both the initial stage and the second stage, a medical review officer assigned to the NJ State Medical Examiner Toxicology Laboratory will review the test results together with the medication information form submitted for the specimen. The medical review officer will seek to determine whether any of the substances listed on the form would explain the positive test result. The medical review officer may direct the agency that collected the sample to obtain further information from the individual being tested concerning the medications listed on the medical information form. The medical review officer will then issue a report indicating whether or not the sample tested positive due to a listed medication on the medication information form.
- E. Applicants for law enforcement employment are not required to submit a Drug Testing Medication Information form with their specimen. Therefore, if an applicant tests positive, the law enforcement agency, following notification from the State Toxicology Laboratory, must have the candidate complete the Drug Testing Medication Information form (Attachment D) listing all prescription medication,

non-prescription (over-the-counter) medication, dietary supplements, and nutritional supplements that were ingested by the donor during the 14 days prior to the specimen collection. The Drug Testing Medication Information form shall be placed in an envelope which is sealed by the donor. The donor shall date and initial the seal, and write their Donor ID on the envelope. Once the form has been completed, the agency is responsible for transmitting the form to the Laboratory. A review of the form will be conducted by the medical review officer as outlined above.

- F. In addition to the testing outlined above, specimens submitted to the State Toxicology Laboratory may be tested for additional substances at the request of the law enforcement agency submitting the specimen. The State Toxicology Laboratory has the ability through its own facilities, as well as facilities employed as references laboratories, to arrange drug testing for steroid abuse, as well as other currently abused substances.

VII. Drug Test Results

- A. The State Toxicology Laboratory will provide written test results for every specimen submitted for analysis. All efforts will be made to deliver these reports within 15 working days of the submission. Reports will be addressed to the contact person listed on the specimen submission record. Positive test results will be sent to the contact person by certified mail.
- B. In some cases, the State Toxicology Laboratory will report that a specimen tested positive for a particular substance and that the information on the medication information form explains the test result.
 - 1. For example, the Laboratory may report that a specimen tested positive for barbiturates and a prescription for that barbiturate was listed on the form by the officer.
 - 2. In such cases, the Bergen County Sheriff's Office of Professional Standards shall be responsible for determining whether the officer had a valid prescription for the drug that was listed on the medication information form. The following should be obtained from the officer's physician:
 - a. Documentation that the prescription was lawfully prescribed
 - b. Documentation that the prescribed medication does not render the officer unfit for duty
 - 3. Officers who do not have a valid prescription are subject to disciplinary action including termination by the agency.
- C. Under no circumstances will the State Toxicology Laboratory provide law enforcement agencies with verbal reports of drug test results. In addition, no individual or agency may ask the Laboratory to conduct a second analysis of a specimen that has already been analyzed.

VIII. Consequences of a Positive Test Result

- A. When an applicant tests positive for illegal drug use:
1. The applicant shall be immediately removed from consideration for employment by the agency.
 2. The applicant shall be reported to the Central Drug Registry maintained by the Division of State Police by the law enforcement agency to which the individual applied.
 3. The applicant shall be precluded from consideration for future law enforcement employment by any law enforcement agency in New Jersey for a period of two years.
 4. If the applicant is currently employed by another agency as a sworn law enforcement officer, the officer's current employer shall be notified of the positive test result. Under these circumstances, the officer's current employer is required to dismiss the officer from employment and also report his or her name to the Central Drug Registry maintained by the Division of State Police.
 5. Any sworn law enforcement officer of the Bergen County Sheriff's Office who is an applicant in another jurisdiction and yields a positive drug test result after undergoing drug testing by that jurisdiction in accordance with the Attorney General's Law Enforcement Drug Testing Policy shall be:
 - a. Immediately suspended from all duties.
 - b. Administratively charged and, upon final disciplinary action, terminated from employment as a law enforcement officer.
 - c. Reported to Central Drug Registry maintained by the Division of State Police.
 - d. Permanently barred from future law enforcement employment in New Jersey.
- B. When a trainee tests positive for illegal drug use, subject to rules adopted by the Police Training Commission:
1. The trainee shall be immediately dismissed from basic training subject to rules adopted by the Police Training Commission and suspended from employment with the Bergen County Sheriff's Office.
 2. Upon final disciplinary action by the Bergen County Sheriff's Office, the trainee shall be terminated from employment as a law enforcement officer.
 3. The trainee shall be reported to the Central Drug Registry maintained by the Division of State Police.
 4. The trainee shall be permanently barred from future law enforcement employment in New Jersey.

- C. When a sworn law enforcement officer tests positive for illegal drug use:
 - 1. The officer shall be immediately suspended from all duties.
 - 2. The officer shall be administratively charged and, upon final disciplinary action, terminated from employment as a law enforcement officer.
 - 3. The officer shall be reported by his or her employer to Central Drug Registry maintained by the Division of State Police.
 - 4. The officer shall be permanently barred from future law enforcement employment in New Jersey.

- D. Any sworn law enforcement officer of the Bergen County Sheriff's Office who is an applicant in another jurisdiction and yields a positive drug test result after undergoing drug testing by that jurisdiction in accordance with the Attorney General's Law Enforcement Drug Testing Policy shall be:
 - 1. Immediately suspended from all duties.
 - 2. Administratively charged and, upon final disciplinary action, terminated from employment as a law enforcement officer.
 - 3. Reported to Central Drug Registry maintained by the Division of State Police.
 - 4. Permanently barred from future law enforcement employment in New Jersey.

- E. Any sworn law enforcement officer of the Bergen County Sheriff's Office who is an applicant in another jurisdiction and is notified of a positive drug test result by that jurisdiction shall immediately notify the Office of Professional Standards Captain, or the Chief, if the Office of Professional Standards Captain is unavailable, of the positive drug test results.
 - a. The officer shall not report for his/her normal assignment or begin his/her work shift without advising a supervisor.
 - b. The officer shall not request time off or a leave without providing the above notification.

IX. Consequences of a Refusal to Submit to a Drug Test

- A. Applicants who refuse to submit to a drug test during the pre-employment process shall be immediately removed from consideration for law enforcement employment and barred from consideration for future law enforcement employment for a period of two years from the date of the refusal. In addition, the Bergen County Sheriff's Office shall forward the applicant's name to the Central Drug Registry and note that the individual refused to submit to a drug test.

- B. Trainees who refuse to submit to a drug test during basic training or after being randomly selected to submit to a drug test or when there exists reasonable

suspicion to believe that the trainee is illegally using drugs shall be immediately removed from the academy and immediately suspended from employment. Upon a finding that the trainee did in fact refuse to submit a sample, the trainee shall be terminated from law enforcement employment and permanently barred from future law enforcement employment in New Jersey. In addition, the Bergen County Sheriff's Office shall forward the trainee's name to the Central Drug Registry and note that the individual refused to submit to a drug test.

- C. Sworn law enforcement officers who refuse to submit to a drug test ordered in response to reasonable suspicion or random selection shall be immediately suspended from employment. Upon a finding that the officer did in fact refuse to submit a sample, the officer shall be terminated from law enforcement employment and permanently barred from future law enforcement employment in New Jersey. In addition, the Bergen County Sheriff's Office shall forward the officer's name to the Central Drug Registry and note that the individual refused to submit to a drug test. Please note that if there is no valid reason why an officer cannot produce a specimen, the officer's actions will be treated as a refusal. In addition, a sworn law enforcement officer who resigns or retires after receiving a lawful order to submit a urine specimen for drug testing and who does not provide the specimen shall be deemed to have refused to submit to the drug test.

X. Resignation/Retirement in Lieu of Disciplinary Action

- A. A sworn law enforcement officer who tests positive for illegal drug use or refuses to submit to a drug test, and who resigns or retires in lieu of disciplinary action or prior to the completion of final disciplinary action, shall be reported by his or her employer to Central Drug Registry and shall be permanently barred from future law enforcement employment in New Jersey.

XI. Record Keeping

- A. The Office of Professional Standards shall maintain all records relating to the drug testing of applicants, trainees and law enforcement officers.
- B. The Bergen County Sheriff's Office's drug testing records shall include but not be limited to:
 - 1. All drug testing:
 - a. The identity of those ordered to submit urine samples;
 - b. The reason for that order;
 - c. The date the urine was collected;
 - d. The monitor of the collection process;
 - e. The chain of custody of the urine sample from the time it was collected until the time it was received by the State Toxicology Laboratory;

- f. The results of the drug testing;
 - g. Copies of notifications to the subject;
 - h. For any positive result, documentation from the officer's physician that the medication was lawfully prescribed and does not render the officer unfit for duty;
 - i. For any positive result or refusal, appropriate documentation of disciplinary action.
2. For random drug testing, the records shall also include the following information:
- a. A description of the process used to randomly select officers for drug testing;
 - b. The date selection was made;
 - c. A copy of the document listing the identities of those selected for drug testing;
 - d. A list of those who were actually tested; and
 - e. The date(s) those officers were tested.
- C. Drug testing records shall be maintained with the level of confidentiality required for internal affairs files pursuant to the New Jersey Internal Affairs Policy and Procedures.

XII. Central Drug Registry

- A. The Bergen County Sheriff's Office shall notify the Central Drug Registry maintained by the Division of State Police of the identity of applicants, trainees and sworn law enforcement officers who test positive for the illegal use of drugs or refuse an order to submit to a drug test (Attachment F).
- B. A sworn law enforcement officer who tests positive for illegal drug use or refuses to submit to a drug test, and who resigns or retires in lieu of disciplinary action or prior to the completion of final disciplinary action, shall be reported by the Bergen County Sheriff's Office to Central Drug Registry and shall be permanently barred from future law enforcement employment in New Jersey.
- C. Notifications to the Central Drug Registry shall include the following information as to each individual:
 1. Name and address of the submitting agency, and contact person;
 2. Name of the individual who tested positive;
 3. Last known address of the individual;

4. Date of birth;
 5. Social security number;
 6. SBI number (if known);
 7. Gender;
 8. Race;
 9. Eye color;
 10. Substance the individual tested positive for, or circumstances of the refusal to submit a urine sample;
 11. Date of the drug test or refusal;
 12. Date of final dismissal or separation from the agency; and
 13. Whether the individual was an applicant, trainee or sworn law enforcement officer.
- D. The certification section of the notification form must be completed by the Sheriff or his designee, and notarized with a raised seal.
- E. Notifications to the Central Drug Registry shall be sent to:
- Division of State Police
State Bureau of Identification
Central Drug Registry
P.O. Box 7068
West Trenton, New Jersey 08628-0068
- F. Information contained in the Central Drug Registry may be released by the Division of State Police only under the following circumstances:
1. In response to an inquiry from a criminal justice agency as part of the background investigation process for prospective or new personnel;
 2. In response to a court order.

XIII. Notification to the County Prosecutor

- A. In the event of (1) a random drug test occurs and results in a positive drug test result; or (2) the administration of a reasonable suspicion drug test of an officer yields a positive result; or (3) a random or reasonable suspicion test is requested and the subject refuses that request, the Sheriff or a designee must complete the "Notification of Drug Testing" form for every officer that meets one of the above "positive" conditions. The Notification of Drug Testing form must be delivered to the Bergen County Prosecutor's Office within ten (10) calendar days (including

weekends and holidays) from the date of testing. Forms can be hand-delivered and/ or mailed (stamped "Confidential") to:

Bergen County Prosecutor's Office
c/o Confidential Investigations Unit
Two Bergen County Plaza
Hackensack, NJ 07601

1. Law enforcement agencies are not required to submit Notification of Drug Testing forms to the Bergen County Prosecutor for situations where an officer is tested, but did not meet one of the conditions above (a "negative" result). However, law enforcement agencies are required to keep track of all positive and negative drug tests within their own agency to comply with the Attorney General's required annual reporting requirements.

B. The Bergen County Sheriff's Office shall submit the "Annual Results of Drug Testing" form to the County Prosecutor indicating the dates of testing (two or more) for that calendar year, the total number of sworn officers in that law enforcement agency, the total number of sworn officers tested, the total number of sworn officers that tested positive and the total number of sworn officers who refused a test. The Annual Results of Drug Testing form must be submitted to the Bergen County Prosecutor's Office by December 1st of each calendar year. The completed form can be hand-delivered and/or mailed (stamped "Confidential") to:

Bergen County Prosecutor's Office
c/o Confidential Investigations Unit
Two Bergen County Plaza
Hackensack, NJ 07601

XIV. Public Accessibility and Confidentiality

- A. The Bergen County Sheriff's Office Drug Testing Policy shall be made available to the public upon request and shall be posted on the agency website. Annual reports from the County Prosecutors to the Attorney General, as required by Section XIII, also shall be made available to the public upon request and shall be posted on the agency website.
- B. All written reports created or submitted pursuant to this general order that identify specific officers are confidential and not subject to public disclosure.

XV. Consequences of Altering or Attempting to Alter the Outcome of a Drug Test

- A. Anyone who alters or attempts to alter the outcome of any drug test and/or the administration of any drug test is subject to dismissal and may be criminally charged pursuant to N.J.S.A. 2C:36-10.
- B. Anyone who is found to possess any tool, product, device or substance adapted, designed, or commonly used to defraud the administration of any drug test, shall be subject to disciplinary action, up to and including termination from employment and may be charged criminally pursuant to N.J.S.A. 2C:36-10.

XVI. Accidental/Inadvertent Exposure

- A. Any officer who believes that they may have been exposed to any substance that could render a positive test result must notify this agency immediately after the exposure. If the exposure occurs on duty, the officer must immediately notify his/her supervisor.
- B. A report detailing the exposure shall be forwarded to the Chief through the chain of command.
- C. If the exposure occurs off duty, notification must be made without undue delay and prior to the officer's next tour of duty.

XVII. Employee Assistance Program

- A. The County of Bergen provides an Employee Assistance Program (EAP). The purpose of this program is to provide employees or their family members with confidential and professional counseling for any personal concerns.
- B. The Bergen County Sheriff's Office makes the Employee Assistance Program available to all employees. Refer to **GO 06-1.31 Employee Assistance Program**.

DRUG TESTING (ATTACHMENT "A")
APPLICANT NOTICE AND ACKNOWLEDGMENT

I, _____, understand that as part of the pre-employment process, the Bergen County Sheriff's Office will conduct a comprehensive background in an effort to determine my suitability for the position for which I have applied.

I understand that as part of this process, I will undergo urinalysis. I understand that a negative drug test result is a condition of employment. I understand that if I refuse to undergo the testing, I will be rejected from employment.

I understand that if I produce a positive test result for illegal drug use, I will be rejected for employment.

I understand that if I produce a positive test result for illegal drug use or refuse to take the test, the information will be forwarded to the Central Drug Registry maintained by the Division of State Police. Information from that registry can be made available by court order or as part of a confidential investigation relating to employment with a criminal justice agency.

I understand that if I produce a positive test result for illegal drug use and am not currently employed as a sworn law enforcement officer, I will be barred from future law enforcement positions in the State of New Jersey for two years from the date of the test. After this two year period, the positive test result may be considered in evaluating my fitness for future criminal justice employment.

I understand that if I am currently employed as a sworn law enforcement officer and I produce a positive test result for illegal drug use, my current law enforcement employer will be notified of the positive test result. In addition, I will be dismissed from my law enforcement position and I will be permanently barred from law enforcement employment.

I have read and understand the information contained on this "Applicant Notice and Acknowledgment" form. I agree to undergo drug testing through urinalysis as part of the pre-employment process.

DRUG TESTING (ATTACHMENT "B")
TRAINEE NOTICE AND ACKNOWLEDGMENT

I, _____, understand that as part of the program of training at the Bergen County Sheriff's Office, I will undergo unannounced drug testing by urinalysis during the training period.

I understand that a negative drug test result is a condition of my continued attendance at the above listed training program. I understand that if I refuse to undergo the testing, I will be dismissed from the training program and from my law enforcement position.

I understand that if I produce a positive test result for illegal drug use, I will be dismissed from the academy.

I understand that if I produce a positive test result for illegal drug use, the academy will notify my employer of the positive test result. In addition I will be permanently dismissed from my law enforcement position.

I understand that if I produce a positive test result for illegal drug use or refuse to take the test, the information will be forwarded to the Central Drug Registry maintained by the Division of State Police. Information from that registry can be made available by court order or as part of a confidential investigation relating to employment with a criminal justice agency.

I understand that if I produce a positive test result for illegal drug use, I will be permanently barred from serving as a law enforcement officer in New Jersey.

I have read and understand the information contained on this "Trainee Notice and Acknowledgment" form. I agree to undergo drug testing through urinalysis as part of the academy training program.

DRUG TESTING (ATTACHMENT "C")
OFFICER NOTICE AND ACKNOWLEDGMENT

I, _____, understand that as part of my employment with the Bergen County Sheriff's Office, I am required to undergo unannounced drug testing by urinalysis either through a random drug testing procedure or where there is reasonable suspicion to believe I am illegally using drugs.

I understand that a negative drug test result is a condition of my continued employment as a sworn officer at the Bergen County Sheriff's Office.

I understand that if I produce a positive test result for illegal drug use, it will result in my termination from employment.

I understand that if I refuse to undergo testing, it will result in the same penalties as a positive test for the illegal use of drugs.

I understand that if I produce a positive test result for illegal drug use or refuse to take the test, the information will be forwarded to the Central Drug Registry maintained by the Division of State Police. Information from that registry can be made available by court order or as part of a confidential investigation relating to my employment with a criminal justice agency.

I understand that if I produce a positive test result for illegal drug use, I will be permanently barred from future employment as a law enforcement officer in New Jersey.

I understand that if I resign or retire after receiving a lawful order to submit a urine specimen for drug testing and do not provide the specimen, I shall be deemed to have refused to submit to the drug test.

I have read and understand the information contained on this "Officer Notice and Acknowledgment" form. I agree to undergo drug testing through urinalysis as a condition of my continued employment as required by law.

BERGEN COUNTY SHERIFF'S OFFICE
REFUSAL TO SUBMIT TO DRUG TEST

I, _____ hereby refuse to submit to Drug Testing being conducted by authorized Sheriff's Office personnel in accordance with the *New Jersey Attorney General "Law Enforcement Drug Testing Policy"* and Bergen County Sheriff's Office *GO 06-1.30 Drug Free Workplace- Law Enforcement Employees*. I recognize that my refusal to submit to testing will be communicated to the Sheriff of Bergen County.

I acknowledge that I have been advised and understand the following:

- A. Applicants who refuse to submit to a drug test during the pre-employment process shall be immediately removed from consideration for law enforcement employment and barred from consideration for future law enforcement employment for a period of two years from the date of the refusal. In addition, the appointing authority shall forward the applicant's name to the Central Drug Registry and note that the individual refused to submit to a drug test.
- B. Trainees who refuse to submit to a drug test during basic training or after being randomly selected to submit to a drug test or when there exists reasonable suspicion to believe that the trainee is illegally using drugs shall be immediately removed from the academy and immediately suspended from employment. Upon a finding that the trainee did in fact refuse to submit a sample, the trainee shall be terminated from law enforcement employment and permanently barred from future law enforcement employment in New Jersey. In addition, the appointing authority shall forward the trainee's name to the Central Drug Registry and note that the individual refused to submit to a drug test.
- C. Sworn law enforcement officers who refuse to submit to a drug test ordered in response to reasonable suspicion or random selection shall be immediately suspended from employment. Upon a finding that the officer did in fact refuse to submit a sample, the officer shall be terminated from law enforcement employment and permanently barred from future law enforcement employment in New Jersey. In addition, the appointing authority shall forward the officer's name to the Central Drug Registry and note that the individual refused to submit to a drug test. Please note that if there is no valid reason why an officer cannot produce a specimen, the officer's actions will be treated as a refusal. In addition, a sworn law enforcement officer who resigns or retires after receiving a lawful order to submit a urine specimen for drug testing and who does not provide the specimen shall be deemed to have refused to submit to the drug test.
